REPORT SCHOOL BOARD

August 31, 1919, to August 31, 1920

Remarks

As Stewards of the School District, we again make our annual report. We feel that much good has been accomplished, in spite of many drawbacks. We have endeavored, to the best of our ability, to do what was for the best interests of all. We have been fortunate in the selection of an able staff of instructors, and under the guiding hand of our Superintendent our youth have been enabled to make good progress.

We wish to impress upon the minds of all the importance of giving our youth all the education we can. Riches take wings and fly away, but what is stored up in thier minds remains. Let each and every one lend a helping hand, may there be a hearty coöperation all along the line—Superintendent, School Board and citizens.

The supply of water at No. 6 school has been condemned by the State Board of Health, and it seems that something must be done to remedy the situation.

During the last summer (1920) repairs were made at Nos 2, 5 and 7, according to plans approved by the State Board of Health.

At No. 6, the bricks from the old toilet were laid around the school house and in the cellar, making a much needed improvement.

At our last annual meeting Mrs. Erma E. Mitchell was elected a member of the School Board for three years.

In conclusion, we would again urge all to stand shoulder to shoulder for the improvement of our schools.

ALBERT F. SANBORN,
CLIFTON P. SANBORN,
ERMA E. MITCHELL,

School Board.

REPORT OF
Superintendent of Schools
For the Year Ending August 31, 1920

To the School Board and Citizens :

I herewith submit my first annual report of the schools of Hooksett.

The school home is an important factor in the education of the child and its influence leaves a lasting impression upon the mind, either for the beautiful or for the ugly.

It has been truthfully said, "The public school is the place to which we should turn chief attention in our effort to promote a more beautiful life in America. The school house and school grounds should be beautiful and the child should be surrounded by beauty in the school room from first to last. Trained in the habit of seeing beauty and knowing it, he will come instinctively to hate ugliness in the house and in the street as he goes out into life."

Many school homes in New Hampshire are unattractive and unsanitary. The school grounds are often badly located. It would seem in some instances that ground that could not be used for anything else, because of its poor location, was chosen for a school ground.

To do good mental work the child needs clean, well heated, properly lighted and ventilated school buildings

and beautiful surroundings. Whittier, feeling the absence of these beneficent influences which broaden and enoble life and enrich human experience, said :

“Still sits the school-house by the road,
A ragged beggar sunning.”

It is the duty of every citizen to use his influence for attractive school homes located on beautiful grounds. The child having gone to school amid beautiful surroundings will look back with pride and say with the poet Schiller, “It is only through the morning gate of the beautiful that you can penetrate into the realm of knowledge. That which we feel here as beauty we shall know one day as truth.”

The Educational Act of March, 1919, demands that schools shall be maintained in “suitable and sanitary buildings.”

Early in July the members of the School Board and Superintendent inspected all the school buildings in the district to find what alterations and improvements were necessary to be made to meet the requirements of this Act, as explained in a circular issued by the State Board of Education.

Plans and specifications of alterations and improvements were made and sent to the State Board for its approval, and were carried out as described in the report of the School Board.

HEALTH AND PHYSICAL WELFARE

Dr. B. L. Freeman was appointed Inspector of Child Health and Welfare. Dr. Freeman made a careful examination of the pupils' physical condition, including tests upon the eyes, ears, throat, lungs, etc. All tests were made as the law provides, and recorded upon

prescribed forms. Dr. Freeman's report is herein printed.

EVENING SCHOOL FOR AMERICANIZATION

An evening school was held in the Suncook school for pupils of Allenstown, Hooksett and Pembroke, the expense borne by the several towns.

Forty-two pupils were enrolled, taught by three teachers, Miss Ethel Farmer, Miss Ellen Whitten and Miss Ruth McFadden.

The sympathetic and enthusiastic work done by these teachers secured a good advancement of the pupils in their knowledge of the use of the English language and held the attendance in a remarkable degree.

At the close of school a musical entertainment was given by the pupils to their friends, and refreshments were given and served by the D. A. R. and the Neighborhood Club. The voluntary coöperation of the women of these two organizations was of the greatest value in teaching the true spirit of Americanization.

TEACHERS AND SALARIES

During the year there were two changes made in the teaching force. At No. 4 primary Ethel Hatch resigned, owing to illness. Marguerite Bennett was elected teacher for this school. At No. 7 Rebecca Blodgett taught the fall term, Bertina Hooker was elected and taught for the remainder of the term.

The salaries of teachers were increased, but not in proportion to the increase in the cost of living. The United States Bureau of Labor Statistics made this startling report: "That the cost of living had risen to such an extent that if we considered it as having been

100 in December, 1914, it was 204 in December, 1919. In other words, the daily necessities of life bought for \$100 at the end of 1914 would have cost \$204 at the end of 1919."

A few years ago the teacher's salary of one school the was the same amount as is now paid for board by teacher of that school.

Most of the schools were well governed and made a commendable degree of progress. The extremely unfavorable weather conditions caused a low per cent of attendance in some of our schools.

In conclusion, I wish to express my appreciation for the hearty coöperation which you have given.

Respectfully submitted:

HENRY S. ROBERTS,
Superintendent of Schools.

Remarks

The library has been well patronized during the year. There has been a large circulation of books. We have issued a larger number of cards than during any previous year. We have just purchased a number of new books. We think they will be very interesting, as they were recommended by trained librarians. We are looking forward to the time when books will be cheaper. Some of them have doubled in price, consequently, we cannot have as many. Our friends have very kindly remembered us. Frances Togus gave 30 books, which are very much appreciated by our younger patrons. Mr. Charles Porter of Manchester has given one of the best magazines published, "The Geographical Magazine." Mr. F. E. Cox, one of the owners and treasurer of the Dundee Mills, made the library a very beautiful and useful present. He gave framed photographs of all the presidents of the United States, from George Wash-

ington to President-elect Warren G. Harding. Mr. Cox is interested in anything that will help to educate the children. We assure him that his gift will be appreciated by every one and that it will always remain in the library as a memorial of his public spirit and generosity. We wish to thank Mr. Talford, agent of the Dundee Mills, and his associates for arranging the photographs in the library.

We would recommend that our library be endowed, the interest would enable us to procure more books every year. We wish to thank all who have helped, in any way, the good work of the library.

Respectfully submitted,

JENNIE B. ABBOTT,
Librarian.
